Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

Applicant's argument is persuasive in overcoming the rejections of claims 1-47, under 35 U.S.C. 102 (f). As Applicant correctly pointed out the ownership between the present Application and US 6,159,347 and US 6,224,717 resides in different organizations.

The instant claims are directed to a method of extracting a tocopherol from a tocopherol containing admixture where, there's no reference of tocotrienol extraction of the '717 patent. Because the present claims are not the same as the claims of '717 and '347 patents, the 1.132 declarations have been accepted.
